

Fig. 1. Homogeneous atmospheric field at ground level Field strength $\approx 150 \text{ V}\cdot\text{m}^{-1}$

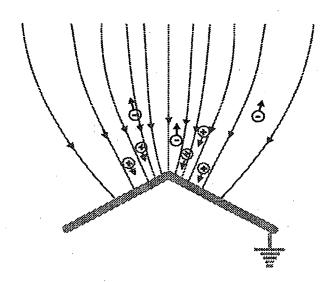

Fig 2. Inhomogeneous atmospheric field around mountain ridge or house roof. field strength $\approx 1000 - 2000 \text{ V} \cdot \text{m}^{-1}$

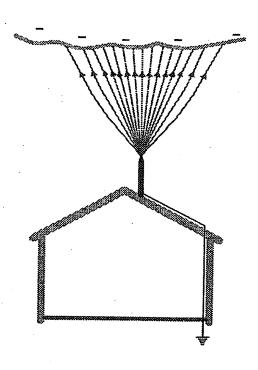

Fig. 3
Field between lightning rod and thundercloud
Maximum field strength 3-4 MV·m⁻¹

4/5

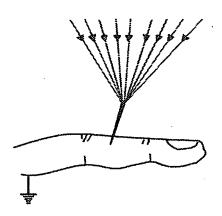

Fig. 4
Field around an acupuncture needle

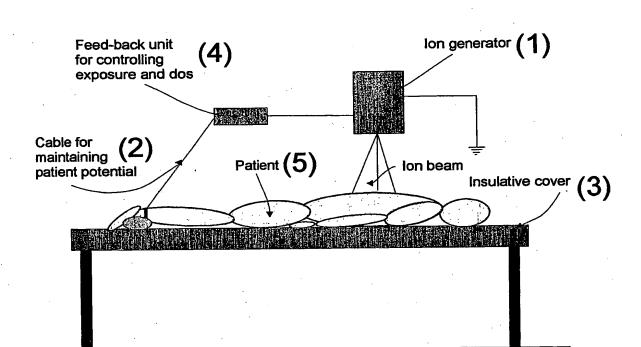

Fig. 5
Diagram of the invention
